Frequently Asked Questions for Doing Business with Farmers Life

Agent Contracting & Licensing

1. Who do I reach out to with contracting questions?

For contracting support, email agency@uflic.com or call (800) 580-7211 and request support for contracting.

2. What products will I have access to by contracting with Farmers Life?

Farmers Life Insurance Company currently offers a single premium multi-year guaranteed annuity (MYGA) and a fixed index annuity (FIA) product available in varying durations.

3. Do you allow agents to contract with more than one IMO?

No.

4. What is required for a transfer from my current IMO?

If an agent has actively written business within the last three months, we require a signed transfer form from his/her current IMO to complete the request. If the agent is not currently writing business, no transfer form is necessary. The agent can write new business immediately following the transfer to a new IMO but will not be allowed to move to a higher level in the hierarchy for at least three months.

5. If an agent transfers his or her existing appointment to another IMO, do you assign a new agent number?

We do not unless the change is specifically requested by the agent or new IMO.

6. Is an appointment terminated at any point due to lack of production?

Farmers Life will terminate any appointment that does not result in a minimum production of \$20,000 in a one-year period.

7. For what reasons would you decline an appointment?

Appointments may be declined if the agent has or is in the process of filing for bankruptcy, the agent has a tax lien, has an insurance license that expired more than 30 days ago, has committed a felony or certain misdemeanors or has not provided proof of AML training completion from the previous two years.

8. How do agents complete product training?

A product training packet is provided to all new agents requesting appointment. Agents are required to study the packet and complete the attestation stating they have completed the training with their contracting paperwork. Training materials are available through SuranceBay or at www.farmerslifeins.com.

9. How are refunds prior to policy issuance handled?

Refunds may be issued and sent to another carrier, but require information on the nature of the transaction (taxable, tax-free, etc.) in order to issue a correct 1099R.

10. Can trusts be listed as the annuitant?

Yes, a "non-natural" owner (i.e., corporation, trustee, etc.) may apply for the annuity.

Qualified plans allow for one owner, and that owner must also be the annuitant. You will often find a provision along the following lines in IRA, Roth IRA, or similar riders:

Owner and Annuitant. Except as otherwise permitted by the IRC, the Owner and the Annuitant must be the same person. You and your mean the Owner/Annuitant. You must be the sole Owner of the Contract. The Owner

and Annuitant cannot be changed, except as otherwise permitted under the IRC. You must comply with applicable IRC rules to prevent: (a) loss of the advantages of tax deferral; and (b) tax penalties.

11. What is Farmers Life's rate lock policy?

Farmers Life will lock in the current rate for a specific time when the application is signed and received before the rate change effective date. This feature avoids a rate decrease while the client submits the premium. For 1035 exchanges and transfers, the rate lock window is 60 days. For checks or cash with app, the window is 15 days. All rate locks are tied to the date the app is written.

Farmers Life reserves the right to close any application that is not in good order or has not met all requirements, even if the funds have been received. The funds will be returned, the application will be voided, and the rate lock will not apply.
